JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Reports from Puerto Cortez, fruit port—No new cases of yellow fever at Pimienta—Sanitary conditions at San Pedro good—Measures against mosquitoes at San Pedro and Choloma.

Acting Assistant Surgeon Kahle reports as follows:

Week ended July 15, 1906. Present officially estimated population, 4,000; general sanitary condition of this port and the surrounding country during the week, good. At present there are no cases of yellow fever at Pimienta. I am told that a strong effort is being made to stamp out the fever in that place. At request of board of health of San Pedro I visited that town and found conditions there exceptionally good; all tanks screened; no weeds in yards; no tin cans or broken bottles; all pools of water drained or oiled, and house-to-house inspection done daily. Houses have also been fumigated. Few or no mosquitoes in the town. The same methods are being employed in Choloma for destruction of *Stegomyia*.

Bills of health were issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.	Pieces of baggage disinfected.
July 11	Anselm	New Orleans	42	0	0	0
12	Taunton	do	23	0	0	0
13	España	do	14	0	0	0
14	Banan	Mobile	18	0	0	0
						0

Week ended July 7, 1906. General sanitary condition of this port and the surrounding country during the week, good.

Pimienta is still without any new cases of yellow fever. The campaign against *Stegomyia* is still being carried on there as well as in San Pedro and Choloma.

Bills of health were issued to the following-named vessels:

Date.	Vessel.	Destination.	Number of crew.	Number of passengers from this port.	Number of passengers in transit.	Pieces of baggage disinfected.
July 16	Atlantis.....	New Orleans.....	21	0	0	0
19	Utstein.....	do	16	0	0	0
19	Hiram	do	15	0	0	0
21	Mercator.....	Mobile	19	0	0	0

Report from Tela—Inspection of vessels.

Acting Assistant Surgeon Roe reports as follows: Week ended July 14, 1906. Present officially estimated population, about 4,000; general sanitary condition of this port and the surrounding country during the week, good.
